CMC has formulated four new recipes for our soup. To serve you the best we can, we only use natural ingredients in our recipe. Although we have many selections of flavors in our line-up, we do not add any flavor enhancers or preservatives in the process at all. It can be served either hot or cold. We welcome the customization of the ingredients, packaging, and specific nutrients according to your preference. You will not need to sacrifice “tasty” for “healthy” anymore when you can get the best of both worlds in our soup.
